

Free, independent and
confidential support
for eligible K.I. small
business owners

Bushfire recovery assistance for small businesses

Rural Business Support has a new program to help eligible small businesses that have been impacted directly, or indirectly, by the bushfires.

We can work alongside business owners employing 19 or fewer staff to:

- Clarify and prioritise the activities required to recover
- Consider business development and/or redevelopment scenarios
- Look at mid to long term goals and strategies to manage business risks
- Develop and implement plans to return to 'normal' operations

Our small business team is local, experienced and ready to help.

To set up an appointment please call:

INCORPORATING RURAL
FINANCIAL COUNSELLING
SERVICE SA/NT

Free, independent and confidential support and business analysis for eligible primary producers and small rural-related businesses

Rural Financial Counselling Service (RFCS)

Delivered by Rural Business Support in SA, RFCS can provide support and information to eligible farmers whose businesses are experiencing financial difficulty, including those impacted by bushfire.

Our clients are primary producers including livestock producers, fruit and vegetable growers, fishers, foresters and harvesters and small rural-related businesses who are experiencing financial hardship, with no alternative source of impartial support.

We can assist you with:

- Understanding your financial position
- Future projections and scenarios
- Exploring financial assistance options
- Preparing for succession planning
 - Planning family meetings
 - Referrals to other support

To set up an appointment please call:
